MR. MARIO A. GENTILE
PRINCIPAL

As we say farewell, I congratulate all of you in the Class of 1974 upon your graduation.

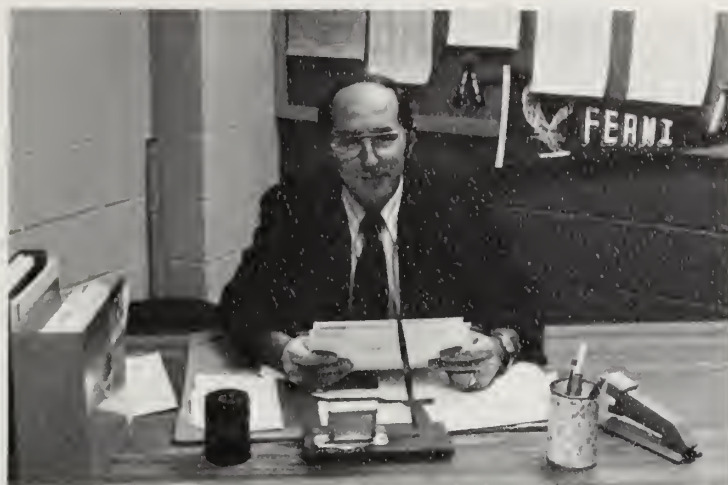

We trust we have prepared you at Fermi to carry on the American way of life, living in contentment but not complacency. I urge you to use the knowledge and experience you have gained here to enrich your future and that of our nation. I hope that you will strive to improve mankind, to live in a world of peace and harmony, enjoying the beauty that exists and working to eliminate the ugliness.

The influence of friends and teachers, through education, should have increased your inspiration to succeed in your own ambitions and should have strengthened your resolve to live as an inspiration to others. As you reach for new adventure in life, I ask that you treasure the qualities of kindness, honesty, understanding, and courage. Strive to find the truth, declare the truth, and accept the truth.

Best wishes for continued success to the first class to have completed three years at Enrico Fermi High School.

GUIDANCE

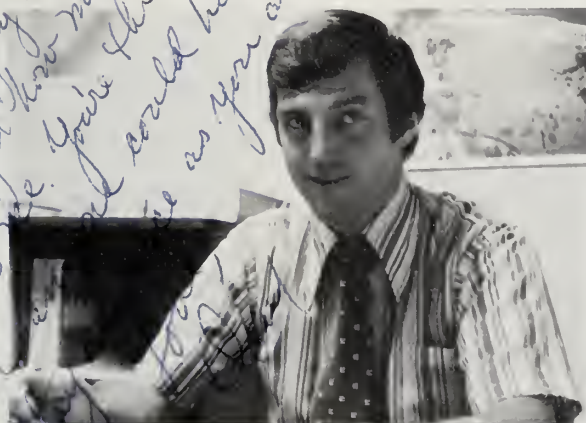

The Enrico Fermi Guidance Department's primary objective is to offer services to the students. The School Counselor assists students with educational and vocational planning along with the opportunity to discuss personal plans for the now and the future. The Guidance Office also furnishes information about the world of work, educational programs and agencies which supplement the services of the school.

FOREIGN LANGUAGE

The Foreign Language Department encourages students to study a foreign language in order to create a better understanding between nations, to appreciate their literature, culture and life style, while at the same time improving their potential in the world of work.

With the above objectives in mind, we offer all students sequential programs in Spanish, French, Italian and German. Our emphasis is on the sounds and grammar patterns of the spoken language, through audio-visual-lingual approach.

ART

Mr. Robert Foley

Industrial Education is an activity-oriented curriculum area concerned with problems of an industrial nature, and how to solve these problems. This may be accomplished by recognizing and defining problems, thinking critically and objectively about them and acting constructively and creatively toward their solution.

SOCIAL STUDIES

The Fermi Social Studies Department is committed to a program based on "The Three I's: Individuality, Inquiry and Involvement. Full year, semester and quarter courses are offered, dealing not only with America, but with all parts of the world, including Europe, Africa, Asia, Canada, Latin America, and the Middle East. In addition, students may make arrangements for independent study in fields where they have particular interest.

SCIENCE

The ten members of Enrico Fermi science staff hope that they have served these two purposes:

Helped the student ask questions and attempt to find a better way to answer them. In other words to have the students use their minds, not the minds of others.

BUSINESS EDUCATION

The Business Education Department Provides an opportunity for students to develop a marketable skill in the fields of Secretarial Science, Bookkeeping, Clerical, Distribution, or Data Processing. The department also offers students opportunities to prepare for a two-or four-year program beyond high school in the fields of Accounting, Business Administration, or Secretarial Science. Emphasis is placed on the value of social contacts, the importance of civic responsibility, and the need for a well adjusted personality.

The Physical Education Department has developed a selective program which has been offered for two years. Students meet five days a week and participate in various units of activity for a designated period of time. Physical Education is no longer a recreational period at Fermi High, but we feel it is a learning experience geared to the development of life time sports and physical fitness. Realizing the system is not perfect, we are continually changing and improving the program in the hope that more students can and will enjoy activity.

TEACHER'S PRAYER

Oh, heavenly one up in the sky,
Don't let me break down and cry!
Help me keep my temper cool
As I begin each day of school.

My homeroom is just down the hall
From the busiest hangout of them all.
A smoke-filled room with a littered floor;
The butts disappear as I come through the door.

I try to realize the students' plight
Because they stayed up late last night.
But, when half my classes are sound asleep,
My peace of mind I cannot keep.

And when my class responds so well
I'm surprised — delighted — my pride doth swell!
So I ask, "What is relative mass?"
Instead I hear, "Can I use the pass?"

I think I give a fair exam
But then I hear, "You're crazy, ma'am.
If you think we can pass this test,
Better cross your fingers and hope for the best!"

I dread one period every day,
But I guess there's just no other way.
Study halls are quite a zoo;
Eighty kids with nothing to do.

Then there's that blessed time of day
When all my troubles go away
Everyone's happy; my heart even sings.
At two o'clock, when the last bell rings.

So help me, someone, to get through the year,
Because if I don't, I can't shed a tear
For all of my students that I've had before,
Especially the great kids from the class of '74.

Seniors

The time we have spent at Enrico Fermi High School has been short. When we began as Sophomores we were not aware of the varied experiences which were ahead for us during the next three years. We were on the threshold of a new life and about to gain insight into the many avenues of learning. We were to gain knowledge and understanding of our fellow man and make lasting friendships which would keep alive the memories and experiences we would earn during high school.

We leave Enrico Fermi High School as older and wiser individuals, looking into the future with great confidence and anticipation. Our educators have tried to prepare us for the many obstacles we will face in this uncertain world. We have worked together as one class for three years, but now the time has come when each of us will begin a different role in society.

The only thing we can do is put to use the knowledge we have gained over the past twelve years and apply it to

our own very special lives. We know we have only scratched the surface of life and there are so many roads to be explored. There is so much more to learn and do and it is there just waiting for each of us. We are closing a very special and memorable, if not brief, chapter of our lives, one filled with much laughter and sadness, memories and dreams, lasting experiences and friendships.

We must not look back in sadness, but forward in happiness. Time does not erase these memories and friendships we have gained; rather, it keeps them alive within us always. May each of us in the Class of 1974 use our lives in a productive way and live with much success, luck and happiness forever, always remembering our days at Enrico Fermi High School.

SENIOR HOMECOMING DAY FLOAT

Well, we did it again! The Class of '74 started the year off with a bang by winning the Homecoming Day Float Contest for the third year in a row. The winning streak began with our Sophomore float dealing with Fermi's dedication, and continued with our Junior float concentrating on school activities and class spirit. The '74 spirit finally caught fire for the climax of our hardworking sessions. "Lift-Off '74" established the mood for our upcoming year, graduation, and future goals. See you next year at the Alumni float meeting!

Evaluating the performance of our team for the past season is a rather arduous task. At the beginning of the school year, in September, I felt we had a chance at a .500 season at best. Little did I realize the reward of the good hard work that was forthcoming. This team performed beyond my expectations, ending the season with a 6-3-4 record — two of those losses by only one goal.

When Soccer is mentioned, Fermi High students can be proud — the first time

we made it to the State Soccer Tournament finals!

GIRLS' FIELD HOCKEY

This year's field hockey season featured a number of notable accomplishments achieved by the team and by individual members of the squad. The girls' 1973 schedule included several perennial state hockey powers, such as E. O. Smith, Simsbury, and Granby. Strong performances against these highly-respected opponents proved Fermi deserving of similar recognition. The team's two games with Granby, the eventual 1973-74 state champion, were particularly impressive as Fermi lost 3-2 and then held Granby to a scoreless tie in their second meeting.

The girls finished their regular season with a record of 8-2-2 which qualified them for state tournament, ranked 17th in the state. In a thrilling contest, the girls defeated Suffield 2-1 in triple overtime, but then lost to Guilford, the tourney's runner-up, 1-0. Participating in the state tournament was an exciting experience for the team and one of which they can be very proud.

Outstanding achievements by individuals on the team include the record scoring of Senior Donna Teske as she led the team in scoring for the third straight year. Donna recorded 18 goals, while Sarah King and Sharon Benoit each had 10. Donna's school record of 27 goals for her three year varsity career will be very difficult to surpass.

CROSS COUNTRY

Cross Country was a new sport at Fermi this past year. The competition was very tough and included several CCIL teams, the Class S, the State L, and the CCIL League champions.

Outstanding performances were consistently recorded by Junior Mike Jones and Sophomore Don Gonzalez who usually finished second and third respectively.

Perhaps the highlight of the year was the Enfield meet in which Fermi swept the first four places.

With only Seniors Keith Boccaccio, Ted Stelmat, and Dave Dragone leaving, continued improvement of this young team should bring Fermi its first winning season next year.

The Fermi High Girls' Swim Team is a dedicated, determined group of girls who have worked diligently the two years of its existence. Although team victories have been minimal, individual accomplishments have been astounding. Realizing the extremely rigorous competition meeting the top ten teams in the state, the swimmers performed admirably, chopping seconds off times in virtually every contest.

Sheila Lee and Debbie Ainsworth, both seniors, and Kathy Duren, junior, met qualifying times for the state championships at Southern Connecticut in New Haven.

The team was captained by Nancy Caswell and Sheila Lee.

A WINNING SEASON!

The thrill of victory

The agony of defeat

COACHING STAFF — *Kneeling:* Mr. Bob Lengyl (Asst. Coach), Mr. Joe Nuccio (Head Coach), Mr. John Kouba. *Standing:* Mr. Dan Gallo, Mr. Bill Barker, Mr. Lennie Shorts.

Can our season be measured by wins and losses alone? If so, we have achieved but mediocrity. Yet, if we did not achieve in other ways, even an undefeated season would have been meaningless. Any coach will preach the importance of blocking and tackling to his players, but what is it that makes those players respond? It is pride; pride in their team, pride in their school, and especially pride in themselves. Football does not take place merely between the markings of white lime, not only within the walls of a locker room, not only before the cheering crowds of a rally, not only during a victory celebration or at a silent meeting of dejected losers. It is an emotional experience unique for each individual.

These are the things seniors must leave behind each year. This year thirteen of us leave them behind — with a lingering emptiness.

All stand at attention for the playing of our National Anthem.

Being a cheerleader is a big part of these girls' lives. It is an honor accompanied by responsibilities such as: making posters, selling booster badges, trying to fill spectator busses, and cheering for a game when school spirit has died, almost. Then, there are very special times unique to a cheerleader and her squad; Going to cheerleading camp in 90 degree summer weather, making sure everyone who needs a ride gets one in the "Nova", meeting a new advisor whose first comment is "you're mental" and after all this, still wanting to be friends outside school.

This year's squad achieved a closeness which shines through both on and off the field and court. Thus, it is with regret that a season ends, especially for the seniors, who have just begun to get to know each other after three very full years. But, a cheerleader leaves with the feeling that she has played as big a part in the making of Fermi High as Fermi High did in the making of her.

Senior Tri-Captains Bob Block, Joe Traczynski, and Jim Gavin did an excellent job in leading the "Falfins" to a hard earned 9 wins and 6 loses record. Bob Block leaves Fermi as the school record holder in the 50, 100, 200, 400, and 500 Yard Freestyle Relay. Jim Gavin leaves school and pool records in one meter diving which should stay on the record books for many years.

Highlights of the season were second place in the Northern Division Independent Schools Swimming Championships; and Jim Gavin's fine second place finish at the State "LL" Championships at Southern Connecticut State College.

Put it here, Jim.

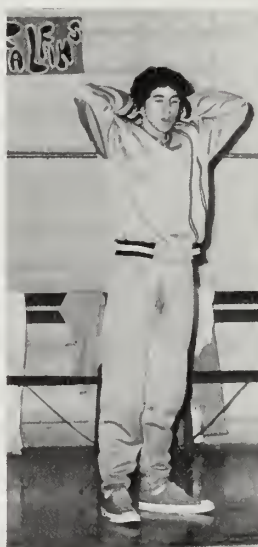

Holy mackerel!

I thought the coach said this was the easy stroke.

Maybe I'll win.

The 1973-74 basketball season witnessed the departure of six seniors, the arrival of some promising new faces and a new coach. Co-captains Diane Derosé and Donna Teske concluded their third year of varsity participation and were instrumental in establishing an atmosphere of pride, unity, and respect that survived a long season and the disappointment of not qualifying for Connecticut's first state tournament for girls' basketball.

The girls' respectable 7-7 record was one percentage point under the 51% cutoff to be eligible for post-season play. There was no lag, however, in the team's spirit or determination as hopes of making the tournament were kept alive up to the very last game which the girls narrowly lost to Penney 27-32. The team's schedule included some very

tough competition as 3 of the 7 schools played finished the year ranked within the top 15 Class L teams in the state.

Being a member of a successful *team* entails a great deal more than simply acquiring skills and being in condition. It necessitates strict self-discipline, an intimate rapport amongst the teammates founded on principles of respect and understanding, maintaining a deep sense of pride in your efforts, and the ability to share joy with teammates.

It was in these aspects of team-membership that this team excelled to surpass their tangible success-rating of 50%. Because of their willingness to address themselves to the task of trying to master all facets of a "basketball season" they emerged better people from the experience, as well as better athletes.

The story of Fermi High School's first ice hockey team is a story of endless hardships and setbacks. A "home" rink which was actually miles from home and a painful scarcity of practice dates were prime factors in limiting the success of the team. And yet, if anything, the story of this team is a success story. Despite the poor conditions, the team compiled a fine 11-9 record against some of the state's finest hockey teams, only to be "rewarded" by another setback. Technicalities in their schedule denied the team a berth in post-season tournament play; a berth which no team could have deserved more.

It was the rapport established by youthful Coach Ed Mantenuto with the diverse personalities of his team which enabled him to demand and get the best his players had to offer. Falcon hockey contests were typified by vicious checking and all out hustle; a style of which Rick Trudeau was the epitome.

The high points of the season will long be remembered - wins over powerhouses Suffield Academy, Conard, South Windsor, and an unprecedented dominance over arch-rival, Enfield.

Ode to a Wrestler
 The Fermi matmen sometimes only numbered ten,
 Even while they practiced in their gym den.
 If only their coach had been quiet,
 They might even have forgotten their diet.
 But what can one say about a record of two and eleven,
 Our coach says it's better than zero and seven.
 Oh yes, our coach, what a nice guy,
 Even if he showed up looking like he was ready to die.
 Who could blame him for looking numb,
 All he shouted at matches was, "Don't look back, you bum."
 Then there were good times with Stauble and Sib.
 However hard we tried, they found no candidates from women's lib.
 Well the team's very glad that they are all eating,
 They know well there will be no more beating.
 And as our space closes out, we must say good-bye,
 Just remember your wrestler is and was a friendly guy.

This year's squad showed a marked improvement over past seasons. The hard work and determination on the part of each boy was evident in every game they played. With the fine play and teamwork of our seniors, combined with the sharp shooting talents of our juniors, our squad fashioned an eight and twelve season. Fermi fans and followers all have a lot to be proud of and can look forward to an even better season next year.

"Where did they go?"

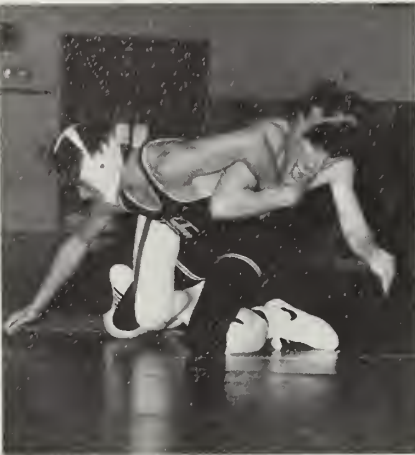

Anxiously awaiting a rebound.

Up, up, and AWAY . . .

"Just a few more inches."

"Now that we got into this we should be able to get out."

Enrico Fermi High School we're for you.
We proudly show your colors black, white and blue.
Spirit high, we'll always do our best
With an F - E - R - M - I for you.

The fighting falcons out for victory
The score goes up, let's cheer, yes, we will
always be
Fighting, winning, to achieve our goal
Stand and give a yell for victory!

"Where did it go?"

"Here's a little strategy for your game, Coach."

"I want you out of there this instant!"

Determination Plus!

"You mean to tell me he's been under the water for 10 minutes and he still hasn't come up for a breath?"

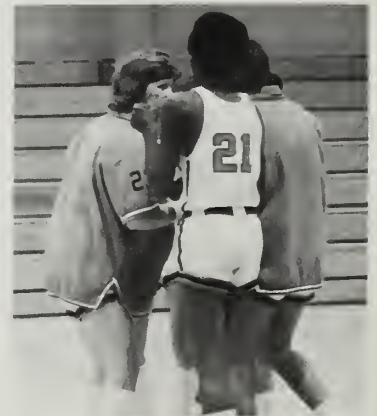

Let Lengyl put you in the driver's seat!

Tap for BLUE.

A new addition to the cheerleading squad????

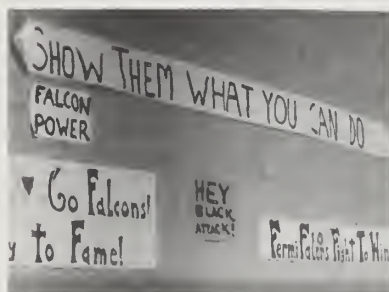

Senior Power.

AND TO THE FANS . . .

Whose happy faces spur us on,

Whose sad faces make us try harder,

And, whose loyalty brings
them to every game

MANY SPECIAL THANKS!

TRACES STAFF 1974

To have a present or future there must first be a past; one filled with the memories of our friends, acquaintances and experiences. As a result of a truly dedicated and hardworking staff, we believe that a meaningful and representative past has been successfully constructed in our 1974 *Traces*.

We hope you will gain from these remembrances and grow with them as we have.

Thank-you,
The Yearbook Staff

Soon It Will Be Over

It's all gone too soon
The smiles, tears, and games;
Counting the days, hours, and minutes.
Yet, I'm sad to say farewell
Because, soon it will be over.

Too many goodbyes, too many memories;
All the hoarse throats and wrong notes;
The sleepy away games and wonderful
45 yard goals;
The ticket sales, long plays,
and longer parties . . .
Soon it will be over.

All the raised gym floors and ugly grapevines;
The pulled muscles and sweaty gym suits,
The smiles from forgotten faces,
Campaign posters, make-up tests,
and unsuccessful labs;
All the goofed-up announcements
and over-due library books.
Soon it will be over.

All the "WE'RE FROM FERMI
AND NO ONE COULD BE PROUDER!" cries.
The walks through what you thought
were empty halls,
and then you'd see a housemaster . . .
who would give you a generous smile
and a warm hello.
All the times you were lonely,
and all the friends who came
are now more than just acquaintances.
Soon it will be over.

I'll miss the Yablonski Cheers
and other Polish revolutions.
Not forgetting the quiet Monday mornings
and taxing Friday tests
and great lunchroom get-togethers.
The days you would lean against a wall
and watch the passers-by.
Or stop in the S.S. lab or converse with
friends by the library.
And I'll miss the firedrills that saved a few working
minutes of class . . .
Soon it will be over.

Remember the rut you got into by taking the same
route every
day to classes, and then one day you decide to
change and see new
faces and temporarily forgotten smiles?
Soon it will be over.

I'll miss the boring assemblies and most of all,
The Senior Class.
The wonderful friends I've made
And the cherished memories they have given me.
And the demanding teachers who were beautiful
people
after the bell rang . . .
the delays of the national anthem
And the weary feet and wornout heads . . .
Too soon it will all be over.

The football season!
The spirit, the fights, the tempers — the victorious
embraces and
the losing pats on another's back.
I'll miss the black cheeks beneath helmets and the
crying fans.
And the basketball season!
With the strange and tickling feeling you get in your
throat when the clock is running fast and you
know
that the Falcons have it all.
And happy Mr. Snipe and sad Mr. Shea, or visa-
versa.
I won't forget the dances and the proms
Or the varied fund-raising solicitors who drove the
faculty up a wall.
Soon it will be over.

But to think it is ending
And we will all leave each other behind,
Yet carry with us only those memories of yesterday.

I *am* going to miss it,
a lot . . . and so will the rest of the class,
The class of 1974 . . .
Because we were in it all . . .
. . . together.

Mahea,
I can't really
express in words
what you mean to
me. You have really
helped me out a lot and
I really appreciate it. Your
kind of friend that I hope
every one should have. I will
that any plans you make will
turn out just the way you want.
With a lot of gratitude &
love
Donna Shady
